Cognitive Solutions   Mangalore, India

- Eager Django developer intern with a strong foundation in Python programming.
- Assisted in building and maintaining web applications using Django framework.
- Gained experience in writing clean and maintainable code, creating database models, and implementing functionalities.
- Demonstrated a willingness to learn and collaborate effectively with a development team.

SKILLS

Technical Skills: React JS, Node JS, Express JS, MongoDB, HTML, CSS, Javascipt, REST API, SQL, PostgreSQL, Bootstrap, material UI, Python, C

Tools: Visual Studio code, Postman, Git

Soft skills: Attention to detail, Time management, Decision making, Adaptability, Communication, Teamwork, Problem-solving.

PROJECTS

Emploverse
Emploverse is a user-friendly job platform designed to connect job seekers with employers efficiently. Built with a modern tech stack, including React, Node.js, MongoDB, Express.js, Redux, and Redux Toolkit, Emploverse offers a user-friendly interface and a host of powerful features. Job seekers can create detailed profiles, while employers can post job openings and manage applications. A sophisticated search engine helps users find relevant jobs based on various criteria. Emploverse offers automated newsletters, social integration, and personalized job recommendations to enhance the user experience.

Resto
Resto is a vibrant restaurant web application that offers a diverse range of culinary delights. Built with cutting-edge technology, including React, Node.js, MongoDB, and Express.js, Resto offers a seamless and immersive dining experience.

Scribly

Scribly is a versatile note-taking web application that empowers you to capture and organize your ideas effectively. With features like note creation, editing, organization, and search, Built with a robust technology stack, including Node.js, MongoDB, and EJS, Scribly offers a seamless and intuitive platform for managing your digital content.

Portfolio

This dynamic portfolio website highlights my skills and experience as a web developer. Built with React and Tailwind CSS, it offers a clean and responsive design. It comprehensively showcases my projects, technical skills, and contact details, providing a well rounded perspective on my professional journey.

Suiichat web Application

This project is a real-time chat application built using React on the front-end and Node.js for the back-end. It enables users to connect, chat, an interact in real-time, fostering communication and collaboration.

Voice-based-news-reader-app

This web application leverages Alan AI's powerful voice recognition and natural language understanding capabilities to provide users with a hands-free news reading experience. By integrating with NewsAPI, the app can fetch news articles from various sources and deliver them through voice synthesis.

EDUCATION

Bachelor of Engineering in Computer Science, P A College of Engineering   2018 - 2022
CGPA : 8.22

Pre-University Education, Canara Pre-University College   2016 - 2018
Percentage: 80.83

High School , Milagres English Medium School
Percentage: 95.36

CERTIFICATIONS

The Complete 2024 Web development Bootcamp
Skills: React.js, Express.js, Node js, Back-End Web Development, Full-Stack Development, Embedded JavaScript (EJS),Front-End Web Development, React Hooks, HTML5, sql, material UI, MERN Stack, CSS3, REST API, PostgreSQL, Postman API, Bootstrap (Framework), JavaScript, JSX, Document Object Model (DOM), JSON, Axios

Introduction to Prompt Engineering for Generative AI
Skills: Generative AI

The Bits and Bytes of Computer Networking
Skills: Computer Networking concepts

Learning SQL Programming
Skills: SQL, Database management system

Machine Learning with Python
Skills: Python programming, Machine Learning

The Arduino Platform and C programming
Skills: Arduino board, C programming

LANGUAGES

English, Kannada, Hindi
